

CERTIFICATE PENETRATION TEST

SySS GmbH
72072 Tübingen

hereby confirms that it carried out a penetration test for the company

itdesign GmbH
Friedrichstraße 12
72072 Tübingen

Test item: Meisterplan

Simulated attack scenarios:

- a) Perpetrator in the Internet without credentials
- b) Perpetrator has valid B2C credentials

Scenarios excluded from the test:

- a) Denial-of-Service based attacks

Test period: November 24 to December 04 2020

Test depth / resistance period: The simulated attack lasted 12 man-days (actual test period)

Summary of test results:

During the test period, few vulnerabilities had been found. However, these vulnerabilities were mitigated by itdesign GmbH as soon as they were discovered. After correcting these vulnerabilities, SySS GmbH no longer detected these vulnerabilities during a retest.

This is hereby confirmed by SySS GmbH.

Recommendation: SySS recommends that the test item be retested after every significant change or at the latest after one year.
